### BACHELOR'S DEGREE IN BUSINESS STUDIES

Unique College of Management, Kumaripati, Lalitpur 2009-2012

## Cover Letter / Professional Statement

Dear Hiring Manager,

I am writing to express my interest in a **Full Stack Web Developer** position. I am a Web Developer with over a decade of experience in the digital space, having grown alongside the evolution of the web. My background combines a strong foundation in UI/UX and graphic design with a growing focus on modern full-stack development using the MERN stack and Laravel.

Throughout my experience at **Saturn Outsource Pvt. Ltd.** and **Link Plus Offshore**, I have worked extensively on building responsive, high-performance websites. My core expertise includes custom WordPress theme development, WooCommerce customization, and SEO-focused implementations. Over the past year, I have been intentionally transitioning into full-stack application development, applying my knowledge of Laravel and the MERN stack to build scalable, data-driven solutions.

With over seven years of experience in graphic design using Photoshop and Illustrator, I bring a design-first approach to development, ensuring that applications are both visually polished and user-friendly. I am comfortable working with REST APIs, Postman for testing, and Git for version control, and I follow clean, maintainable development practices.

I am a fast learner who enjoys adapting to new technologies and solving real-world problems through thoughtful design and clean code. I would welcome the opportunity to contribute my skills and experience as part of a development team.

Thank you for your time and consideration. I look forward to the opportunity to discuss how I can add value to your projects.

Sincerely,

Dirgaraj Lama
